Jason Sianandar

Front-end/Full-stack Developer

👤 Profile

I am a Software/Front-end Developer in PT Inovasi Otomasi Teknologi with over 2 years of experience and aspiring to be a Frontend Developer and Fullstack developer in the future. Throughout my university experience, from making my first PyGame, making MySQL databases, creating recognition systems, to building web applications, and nothing makes me happier than seeing the program runs without any errors. I am looking forward to further enhance my skills and also my career in the computer science field.

💼 Employment History
